Approximately 7 inches in diameter

Instructions

Watermelon Felt Sunglasses Case

Step 1: Cut out all 3 circles and 13 black seeds. Pin your paper outlines to the appropriate colour felt and cut around.

Step 2: Layer and stitch the 3 pieces of felt on top of one another. Green on the bottom, then white, and finally red. Sew (or glue) your seeds approximately 1/4" from the edge of your red circle (See image reference as a guide).

Step 3: Once that's complete, fold your circle in half. Stich along the outer edge the circle, leaving around 3.5" on one side for the opening.

Donut Felt Sunglasses Case

Step 1: Cut out the all of the outlines (Donut, Icing and sprinkles). Pin your paper outlines to the appropriate colour felt and cut around.

Step 2: Layer and stitch the pieces of felt on top of each other. The donut circle on the bottom, then the icing (be sure the center circle matches up). Scatter your sprinkle cut outs around the icing piece of piece, glueing or sewing as you go.

Step 3: Once that's complete, fold your circle in half. Stitch along the outer edge the circle, leaving around 3.5" on one side for the opening.
