

DIY BLOCK QUILT

A super easy, super fast quilt using 25cm (10") squares. Make a kid size or add squares for a full size bed topper.

What you need:

- Kid size 115 x 140cm (45 x 55")
- 2m total assorted craft/quilting cottons
- 1.5m solid or printed wide width cotton for backing
- 1.5m batting
- seam allowance = 1cm (1/2")

1. Cut 30 squares 25 x 25cm (10 x 10")

2. Layout squares 5 across each row and 6 down for height in the pattern of your choice.

3. Sew squares together in rows.

4. Press seams open.

5. Pin rows together, matching seams.

6. Stitch and press seams open.

7. Cut batting and backing to match the size of the finished quilt top. Layer batting on **WRONG** side of quilt top and **RIGHT** side of backing on **RIGHT** side of quilt top. Pin and stitch together leaving a 20cm (8") opening.

8. Turn right side out, press edges and stitch opening closed either by hand or machine.

OPTION: Quilt around squares or use an all-over quilting design if desired.
