3.5 sc x 4 rows = 4" (10cm)

MATERIALS:

- 4 meters of 152cm(60") width fleece:
 - o Colour A (Base Colour) = 2 meters
 - o Colour B = 1 meter
 - o Colour C = 1 meter
- pins
- ruler or meter stick
- tailor's chalk or a washable fabric marker
- fabric scissors
- 25mm jumbo crochet hook
- 1 stitch marker

ABBREVIATIONS:

CH = chain SC = single crochet SL ST = slip stitch ST(S) = stitch(es)

INSTRUCTIONS:

To make yarn: Take your fleece, and with right sides together, fold fabric lengthwise with selvages together. Cut off selvages and pin the edges together. With your ruler and marker, mark every 4cm (1.5") along the length of your fabric both on the fold and raw edges. Connect the marks, and starting from the fold, cut along the line. You will be left with strips 4cm (1.5") wide and 152cm (60") long. Tie all strips together in a knot to create one long strand of yarn. As you go along, with right side facing up, pull tightly and stretch out each strip. This will make the raw edges naturally curl inward, making it easier to crochet. Repeat for all colours.
