

DIY Easter Banner

With Beacon Felt Glue!

MATERIALS: Printed Templates / Scissors / Craft Felt Sheets / Beacon Felt Glue / Rope or string of your choice / Decorative Notions

1. Print the templates and gather needed materials.

2. Cut the letters and shapes out of felt. (Be sure to cut the P and the E twice!) To replicate the banner design below, cut 15 bunting shapes as well as 2 bunnies and 2 carrots.

3. Glue each letter and shape onto a bunting piece. Get creative and add trims, buttons and decorations to your liking!

4. Glue the buntings in order on string by placing a line of glue across the top of the back. Hold in place until glue is dry.
