

Instructions

Felt Masks

Step 1: Cut out all the shapes in the pattern. Pin your paper outlines to the appropriate colour felt and cut around.

Step 2: Layer and glue the pieces of felt on top of one another. Using the picture reference as a guide.

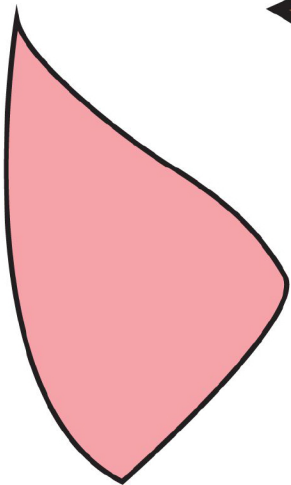

Step 3: To secure the mask onto you, you will need to measure out approximately two 15" pieces of ribbon. Glue each piece (on the back side) near the edge of the mask, around where the middle of the eye cut outs are.

Step 4: Once all your glue has dried, try your new felt mask on! If the ribbon is too long after tying a bow, cut off any excess.
