

HOLIDAY GNOME WREATH

What you need:

- Ribbon Sewing Needle
- Embroidery Thread
- Embroidery Hoop
- Medium Weight Felt
- Lightweight Felt
- 3 Wire Edge Ribbons
- Glue Gun & Sticks
- Scissors
- Ruler

Step 1: Using the embroidery hoop as a guide, cut a circle out of medium weight felt.

Step 2: Cut the centre out of the felt circle base. The width of the felt rim should match the width of your chosen ribbons.

Step 3: Layer all three ribbons. Using embroidery thread, tack down the ribbon stack all around the felt circle, at 2.5" (6.5cm) increments, leaving 6" (15.5cm) of ribbon between each tack.

Step 4: Glue your wreath to the embroidery hoop for stability. Pull the 2nd & 3rd layers of ribbon outward to "fluff" your wreath and bend the wire edges until you achieve the desired look.

Step 5: With the remaining ribbon, cut out six 21" (53.5cm) long pieces. Fold in half and stack neatly.

Step 6: Tie ribbons together in the middle.

Step 7: Glue or sew the tied area to the wreath. Pull and bend ribbons to achieve desired look.

Step 8: Using lightweight felt, cut out the gnome pattern pieces.

Step 9: Blanket Stitch the body pieces and hat pieces together. Stitch closed the nose piece. Stuff the body & hat with scrap felt, fabric or batting.

Step 10: Sew all your pieces together to create your finished gnome and attach it to the wreath.

**HAPPY
HOLIDAYS!**
