

# HALLOWEEN CRAFT FUN

## GHOST BANNER

With just a small strip of white craft fun solids, some black twill tape and a little bit of Fabri-Tac glue you can make this super cute ghost banner. Cut out the shapes from the pattern, draw a scary face with a permanent marker and glue to the twill tape. Easy and fun!

1. Cut one rectangle 17x40" for the bag and another 4x36" for the handle.
2. Cut out a circle using a large plate as a pattern and some bat motifs from the pattern below. Place in the center of one half of the bag rectangle as shown.
3. Attach either by machine stitching, Fabri-Tac glue or even a spray adhesive.
4. Fold the bag rectangle in half right sides together and stitch 2 side edges. Turn right side out.
5. Fold the top edge down 1" and topstitch in place.
6. Fold the handle rectangle in 3 and topstitch along the 2 folded edges.
7. Pin and sew the handle to the inside of each side seam.

## TRICK-OR-TREAT SHOULDER BAG

## SUPERHERO CAPE

4. Cut a strip 1x40" for the tie. Pin the right side top center of the cape to the center of the tie along one edge. Stitch the cape to the tie piece using a 1/2" seam allowance.
6. Fold the tie strip in half and pin. Edge stitch around entire tie.

1. Cut a rectangle 15x28". Fold in half lengthwise and mark 7" along the top edge. Draw a line from the 7" mark to the outer point of the bottom edge and cut along the line.
2. Keeping the rectangle folded, mark 2" from the bottom of the outer edges then draw and cut a curve from the bottom centerfold to the 2" mark.
3. Cut out the lightening and star patterns and attach to the center back either by machine sewing, using Fabri-Tac glue or adhesive spray.
