

Faux Fur Slipper Boots

MATERIALS:

- Jumbo #7 Fur Loop Yarn (300g / approx. 15m)
- One Ball of Medium #4 Yarn in Matching Colour
- Suede Slipper Soles
- Two 5cm Yarn Pompoms
- Measuring Tape
- Yarn Needle

* **NOTE:** No knitting needles are required for the following knitting pattern. Right side of project is always facing up while knitting, and is worked in alternating directions with no turning of work required. Avoid loops from twisting and make sure not to skip any loops.

HOW TO KNIT:

Lay loops flat, facing up. This is your base row (Cast On). Working right to left, back to front, thread the next loop in sequence through the last loop of the base row pulling the loop towards you. Continue until you have worked your way to the left. Continue alternating directions.

HOW TO BIND OFF:

Knit the next 2 loops as you would. Thread the second loop into the first loop, from front to back, pulling the loop away from you. Knit the third loop, and continue this sequence until all stitches have been secured. Cut the last loop to create a yarn tail. Tie a knot and weave in all ends.

ABBREVIATIONS:

CO = cast on

K = knit

BO = bind off

KNITTING PATTERN:

The following knitting pattern allows you to custom size.

① With your measuring tape, loosely measure around your ankle. Add an extra 5cm (2") to that measurement. Lay loops flat, facing up, to create your base row (CO). Make your CO equal this measurement. K for 3 rows.

② With your measuring tape, measure from the top centre of your ankle to the tip of your foot. This will be called your 'top seam'. CO to the left to equal the measurement of the top seam. K all loops to the end of the row.

③ In the same manner, CO to the right to also equal the measurement of the top seam. K all loops to the end of the row.

④ Continue to K all loops for 4 rows. BO. Cut yarn and weave in all ends.

⑤ Fold project in half vertically. You will see the shape of your boot begin to form. Cut open loops to create a straight strand of yarn. Use this piece to weave edges together. When weaving through the corners, curve your seam to round out the corners.

⑥ Flip boot inside out. Cross stitch the boot to the slipper sole using your yarn needle and Medium #4 yarn. Take the same yarn, and starting from the outer side of the boot, weave the yarn along to top edge, and leave 7.5cm (3") hanging from each end. Cut yarn and then attach your 5cm yarn pompoms to each end. Repeat for second boot.
